

are cold road milling machines with a hydrostatic drive system and the front loading conveyor of the cut-off material. It is designed for mid and large scale jobs of repairs and rehabilitation of asphalt or concrete road layers. The machine is equipped with Martin Diesel engine, hydrostatic transmission Sauer-ZTS and Mannesmann Rexroth.

STANDARD

SFS 50 / SFS 100

- ☒ Operator platform with canopy
- ☒ Pressure sprinkling systém
- ☒ Standard levelling device
- ☒ Electrohydraulic control
- ☒ Wheels are hydrostatically driven
- ☒ Working halogen headlights
- ☒ Teeth knockout tool
- ☒ Levelling adjustment device
- ☒ Painting STA: yellow, grey

OPTIONS

SFS 50 / SFS 100

- ☐ Telescopic front wheel
- ☐ Special painting

SFS 50

- ☐ SFS 50 to SFS 100 rebuilding kit

SFS 100

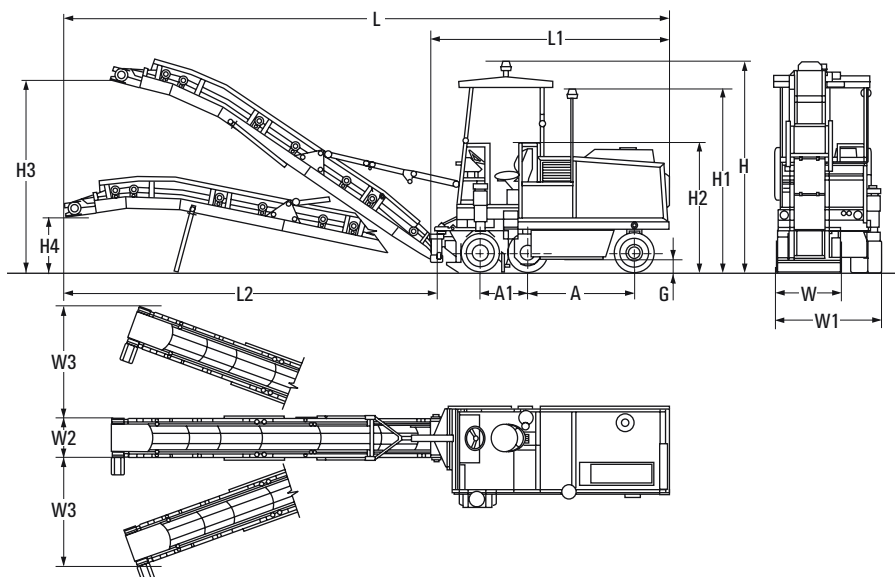

- ☐ SFS 100 to SFS 50 rebuilding kit
